

Fall Protection

Qual Crafts Fall Arrest Kit

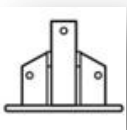

The Fall Arrest Kit comes in a convenient, durable bucket for easy storage and transport and contains essential safety items. Included is a durable 3 strand 5/8" diameter synthetic lifeline with an eye-splice thimble and 3/4" self locking snap hook and end splice. A Cam lever rope adjuster that is directly sewn into the shock absorbing lanyard that allows dissipation of energy by extending the deceleration distance are also included. A steel roof peak anchor with a forged D-ring that is reusable and meets OSHA fall protection guidelines and #10 by 2" flathead wood screws are included. Another component is the adjustable full body harness with a back D-ring that helps to ensure maximum safety. This kit also includes an in depth instruction booklet containing illustrations and component descriptions.

Qual Crafts Guardrail Post

The Qual-Craft 2364 WallCrawler Guardrail Post allows you to easily and quickly construct safety barriers on stairs or platforms. When used properly with the Qual-Craft 2366 WallCrawler Guard Post Base and standard 2x4's, you can increase your level of safety by providing excellent fall protection during scaffolding jobs and other tasks. The Qual-Craft 2364 WallCrawler Guardrail Post also works great with the Qual-Craft WallCrawler Hanging Scaffold System.

Qual Crafts Post Base

The Qual-Craft 2366 Guard Post Base can be used in conjunction with the Qual-Craft 2364 WallCrawler Guardrail Post and standard 2x4's to easily and quickly construct safety barriers on stairs or open platforms. The combination of the post and base work great on the ground or with the Qual-Craft WebCrawler Hanging Scaffold System to provide excellent fall protection.
